**Ray Lindsay** has recently coached at **Wolston Park Centenary Cricket Club** in Brisbane's western suburbs, after many years of involvement as a coach and administrator, first at the (Junior) *Centenary Cricket Club*, then through the merger with the (Senior) *Wolston Park Cricket Club* to create a *home of cricket* that offers a development pathway for all players.

Ray has experience in coaching and team management not only at Wolston Park but with MSW Cricket and through a commercial venture that included Australian and New Zealand distribution of the UK-based **Quintic Biomechanics** software package.

During this period, Ray worked with players from Wolston Park Centenary, local State and Private High Schools, and from senior clubs in Brisbane, Perth and New Zealand. Ray also sold the **Quintic** software into tertiary institutions in Brisbane and Melbourne.
